Cite While You Write for Microsoft Word

To install the CiteWhileYouWrite EndnoteWeb extension for Word:

- Make sure you are logged in to EndNote Web.
- Click the **Downloads** tab at the top of any page.
- Under **Cite While You Write**, choose either **Download Windows** or **Download Macintosh**

The screenshot shows the EndNote web interface. At the top, there is a navigation bar with the following tabs: My References, Collect, Organize, Format, Match, Options, Downloads, and Administrator Tools. The 'Downloads' tab is highlighted with a yellow box and a yellow arrow pointing to it. Below the navigation bar, the main content area is divided into two columns. The left column is titled 'Cite While You Write™' and contains the following text: 'Find out why EndNote is the industry leader in bibliographic formatting.' and 'Download our patented* Cite While You Write tool to insert references, and format citations and bibliographies automatically while you write your papers in Word.' Below this text is a yellow box containing the text 'See Installation Instructions and System Requirements.' and a list of links: 'Download Windows', 'Download Windows MSI for mass program installation', and 'Download Macintosh'. The right column is titled 'Capture:' and contains the text 'To install the Capture tool, just click the Capture button to your Bookmarks bar (or "Bookmarks Toolbar"). In some versions, you may need to right-click and select "Add to Favorites".' and 'To use it, browse to a page you want to capture. Click the Reference button in the Bookmarks window will open. Follow the instructions to install the tool.'

- Follow the [Installation Instructions](#).
